INSTRUCTIONS FOR USE

Refer to the product label for complete directions, rates and cautions. Always read and follow all label directions.

Area Covered	Avian Control® Fluid	BirdBuffer® Spray Mix	Water
1/8 Acre (5,445 sq ft)	4 ounces	1/2 ounce	2 gallons
1/4 Acre (10,890 sq ft)	8 ounces	1 ounce	4 gallons
1/2 Acre (21,780 sq ft)	16 ounces	2 ounces	8 gallons

Why does BirdBuffer® Repellent Spray work?

Our product is made from a naturally occurring compound that comes from the skin of grapes. While the scent is pleasant to humans and mammals, birds do not like the smell at all—it is like being sprayed with pepper spray and they naturally avoid areas that bother their sinuses. Once birds are trained to stay away, continue periodic spraying to keep them away!

Instructions for use in electric-powered, backpack or hand pump sprayers:

1. Add above ingredients in sprayer and mix thoroughly
2. If using on metal or wood, test a small area for damage before using
3. For best coverage, apply a fine, even mist over problem area
4. Apply every 7-14 days or after each mowing or rain
5. Watch the birds fly away!!
